No.27, Basic Type CG1G2G1G2

Glide-reflect the arbitrary line AB to CD (glide-reection axes H1I1 at a distance a from A and C, and at a distance b from B and D). Draw the arbitrary line BC and glide-reflect along the glide-reflection axis H2I2 towards AE (H2I2 _|_ H1I1 equidistant from A and C). Complete the figure by a C-line DE.

Number of arbitrary lines: 3

Network: 43433

4 Positions.
