

## No.22, Basic Type CCGG

Move the arbitrary line  $AB$  by glide-reflection to the position  $BC$  so that it connects (glide-reflection axis  $HI$  parallel to  $AC$  at the same distance from  $A$  as from  $B$ ). Draw both C-lines  $AD$  and  $CD$  towards an arbitrary point  $D$ .

Number of arbitrary lines: 3

Network: 4444

4 Positions.
